github.com/ajay-chauhan-324 — portfolio-swart-gamma-40.vercel.app

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, HTML5, CSS3, SQL
Frontend: React.js, Redux Toolkit, React Router, Tailwind CSS, Framer Motion, React Hook Form, Zod, Axios, TanStack Query, Headless UI, shadcn/ui, Radix UI
Backend: Node.js, Express.js, Django, Django REST Framework, RESTful APIs
Database: MySQL, MongoDB
Developer Tools: Git, GitHub, VS Code, npm, Vercel, Netlify, GitHub Copilot, Cursor, Windsurf, Claude Code
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Responsive Web Design, API Integration

EDUCATION

LJ University <i>Master of Computer Applications (MCA)</i>	Ahmedabad, Gujarat 2024 – 2026
LJ University <i>Bachelor of Computer Applications (BCA)</i>	Ahmedabad, Gujarat 2021 – 2024

CERTIFICATIONS

Full Stack Web Development Bootcamp
2025
Python & Django Development Certification
2024

EXPERIENCE

Frontend Developer Intern <i>Elite Code Technologies (Remote)</i>	Jan 2026 – Jun 2026 (6 Months) Ahmedabad, Gujarat
---	--

- Built 15+ reusable React components using React.js, Tailwind CSS and modern component-driven architecture.
- Implemented application state management using Redux Toolkit and React Router for scalable frontend development.
- Integrated RESTful APIs with Axios and optimized server-state management using TanStack Query.
- Developed responsive user interfaces compatible with desktop, tablet and mobile devices.
- Created accessible forms using React Hook Form and Zod for efficient client-side validation.
- Designed modern interfaces using Framer Motion, Headless UI and shadcn/ui components.
- Collaborated with senior developers on client and internal projects using Git, GitHub and Agile workflows.
- Debugged UI issues, improved code maintainability and enhanced frontend performance through component optimization.

PROJECTS

E-Commerce Platform <i>React.js, Redux Toolkit, Django REST Framework, MySQL, Tailwind CSS</i>	GitHub
- Developed a full-stack e-commerce platform featuring authentication, product catalog, shopping cart, wishlist and order management. - Implemented Redux Toolkit for centralized state management, improving maintainability across multiple modules. - Integrated secure REST APIs using Django REST Framework for authentication, products and order processing. - Designed responsive interfaces with Tailwind CSS and optimized user experience across desktop and mobile devices. - Applied reusable component architecture to improve scalability and simplify future feature development.	
Developer Portfolio <i>React.js, Tailwind CSS, Framer Motion</i>	Live
- Designed and developed a personal portfolio showcasing projects, technical skills and professional experience. - Implemented smooth animations using Framer Motion to create engaging user interactions. - Built responsive layouts supporting desktop, tablet and mobile devices.	

- Deployed the application on Vercel with automated updates through GitHub integration.

Task Management Application | *React.js, React Router, Local Storage*

- Built a responsive task management application supporting complete CRUD operations.
- Implemented React Router for seamless client-side navigation between application views.
- Stored application data using Local Storage for persistent task management without a backend.
- Designed reusable UI components to improve code organization and maintainability.

News Aggregator | *React.js, Axios, REST APIs*

- Developed a news aggregation platform consuming public REST APIs to display real-time news content.
- Integrated Axios for API communication with loading and error-state handling.
- Implemented category-based filtering and keyword search for faster content discovery.
- Optimized API requests and frontend rendering to improve application responsiveness.
